For your information

-**SeeSaw:** Seesaw is up and running for the year. Please let me know if you are having trouble accessing it at all. I can re-send QR-codes to any families who need to reconnect with their child's journal. We will be uploading pictures, videos and work we're doing in 4B so that you can stay connected with what is happening in class. I will also be using SeeSaw to send home examples/reminders for homework and notes.

-**Typing.com** - We are beginning our 21-days of typing in grade 4!! In order for our students to learn how to type (properly) we will be heading to the computer lab for a period a day, for 21 days. Students are able to practice typing at home! The username and password will be taped in their agenda book. Please encourage students to use proper finger positioning while practicing at home to help them avoid building bad habits that will slow them down in the long run.

-**Science Quizzes** - On Monday and Tuesday green science duotangs will be coming home for students to review what they have learned about Igneous rocks. Spend about 10 minutes each evening reviewing with your child (some suggestions of what and how to review will be posted on SeeSaw).

-**Gym Clothes** - Just a quick reminder to send gym clothes to school with your child for our classes next week. There were a handful of students who do not have gym clothes this week.
