Highlights of the week

- Calvin Cup wrapped up this week. Congratulations to the Ducks and Panthers for making it into the final. In the end the Ducks won the Calvin Cup! Congrats to Blake and Maddie who were a part of the winning Ducks' team!!
- We wrapped up our science unit this week and everyone rocked their final test!
- On Friday, we gathered with the 4A class and watched the movie Hoot. It was a great way to wrap up our final novel and our science unit.

Blessings,
Shauna Leferink <>

25. week

Bible Memory - due Thursday, March 14th

"And may the peace of God,
which transcends all understanding,
will guard your hearts and minds in Christ Jesus."
Philippians 4:6

For your information

- **Multiplication Facts**: A note is coming home about learning multiplication facts, check your child's backpack. We will be learning the 2x facts this week and will continue to work through other facts families in the week's to come. We find that students do better with more exposure to using the multiplication facts and needed to retain and recall them in a variety of settings.

- **Finishing Up**: We have wrapped up a few units in the last couple of weeks. I will be sending home the tests and the work from the unit. Both of these may stay at home. Take time to celebrate the learning your child has done this term!
