Highlights of the week

- ✘ We had the chance to do some "research" while we played board games. This gave us plenty of ideas for the games we will be starting.
- ✘ We began research on a province or territory, which will be a focus for our games.
- ✘ We are half way through learning our multiplication facts. We're finished: 1x, 2x, 3x, 5x, and 10x. We only have 4x, 6x, 7x, 8x, and 9x left!

For your information

- **Multiplication Facts:** We are finished with the "easier" fact families. Now that we are moving onto the more difficult fact families, it becomes even more important for students to take time to work on these facts at home. Take advantage of the games suggested and the websites provided.

Join us for a night of laughter and fun at Calvin's first Trivia Night fundraiser in support of Grade 6 camp. Trivia Night is an exciting event for adults and teens where teams compete to answer questions on topics ranging from history and pop culture to sports and science.
